

## Report from the Commission on Assessments

The Commission on Assessments arose out of complications on the floor of the last General Conference regarding who could vote and who could not. It was also in response to the previous Commission on Structures and Assessments inability to get accurate information. Early in this Governing Board's history, we acknowledged that we have had no time to assess the 10% assessment rate additionally, the Moderator had announced a new structure for MCC staffing. Therefore, the Commission on Assessments put on hold any meetings to recommend changes to our current system until such time as the new organizational structure and assessment rate can be evaluated.

Respectfully Submitted by,

Rev. Elder Diane Fisher, clerk of the Governing Board
